COMIFAC

Forest in Cameroon

The objective was the creation of a Land Use Atlas for the COMIFAC-region as part of the program: “Regional Support To the Central African Forests Commission (COMIFAC)”

Following services were provided:

- Survey, compilation and processing of geographical data and information
- Consultancy on the involvement of all COMIFAC member states in the frame of creation of the Land Uses Atlas
- Definition of land use categories, analysis of frames and classification of land use types
- Embedding of produced frames into a GIS data base (Land Use Atlas)
- Development of a methodology and user-interface for actualization and maintenance of data
- Creation of handouts and execution of trainings for administrators in using the atlas and its actualization
